About Us

The Asia Pacific Cities Alliance for Tobacco Control and NCDs Prevention (AP-CAT) was established in 2016, united by their shared vision to create tobacco free environments. AP-CAT has two co-chairs, Dr Bima Arya Sugiarto, Mayor of Bogor City, Indonesia and Francis Anthony S. Garcia, Mayor of Balanga City, Philippines. Under their leadership, AP-CAT has been joined by 40 cities from 12 countries with support from the Ministry of Health, Indonesia; Ministry of Health, Cambodia; Ministry of Health and Sports, Myanmar; Ministry of Health, Lao PDR; and Ministry of Health and Population, Nepal; Bloomberg Philanthropies and the International Union Against Tuberculosis and Lung Disease (The Union). The Union Asia Pacific office in Singapore hosts the secretariat of the AP-CAT.

Purpose

Recognizing that subnational leaders' play a key role in the subnational and national health development agenda, the goal of AP-CAT is to build stronger political commitments, new partnership opportunities, sustainable and effective utilisation of resources and stronger health system performance & outcomes.

Objectives- ACT

ACT to implement a comprehensive tobacco control policy with effective use of resources

CREATE innovative and solutions to prevent noncommunicable diseases.

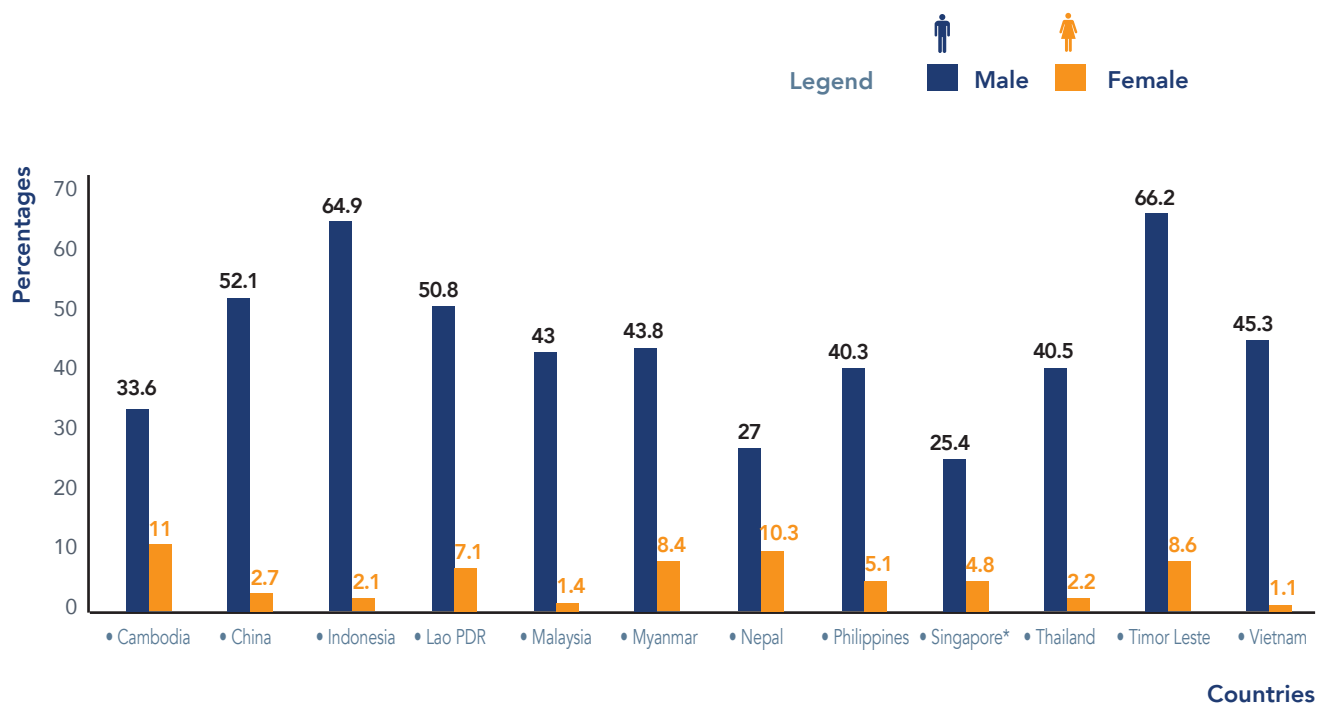

TACKLE industry's interferences in policy development and implementation by establishing rules and regulations.

How It Works

1. **Country to country:** Share best practices while implementing tobacco control and NCDs prevention.
2. **City to city:** Mayors and Leaders visit within the country and region to motivate their peers and share lessons learnt.
3. **Policy to practice:** Widen program coverage and gain political will to translate policies into practice.
4. **Subnational to National:** Leaders work with national policy makers to improve NCD and tobacco control implementation.
5. **Mayors to Media:** Mayors disseminate data and policy outcomes regularly with the media to help reiterate their efforts and showcase the policy impact in their city.

Myanmar

Myanmar Subnational Government Alliance for Tobacco Control and Prevention of Non-Communicable Diseases (NCDs)

Myanmar Mayors, Social Ministers (from state and region), The Union Minister for Health and Sports and Members of Parliament announce the establishment of the alliance, June 2018

Myanmar committed to establish the Myanmar Subnational Government Alliance for Tobacco Control and Prevention of Noncommunicable Diseases (NCDs), with the time bound action plan to implement tobacco control and NCD prevention programmes at the subnational level.

Vietnam

Vietnam Provincial Alliance for Tobacco Control

Established to protect the health of people through stronger enforcement of existing tobacco control laws.

Closely associate tobacco control and noncommunicable disease prevention programs, to build capacity and increase cooperation to transform social norms.

The provinces of Bac Lieu, Thai Binh, Dong Thap establishing the Vietnam Provincial Alliance for Tobacco Control, 2017.

Cambodia

Cambodia Smokefree Cities and NCD Prevention Alliance (CAT) was established in 2017, aimed at driving local innovations and solutions for effective implementation of tobacco control and NCDs prevention.

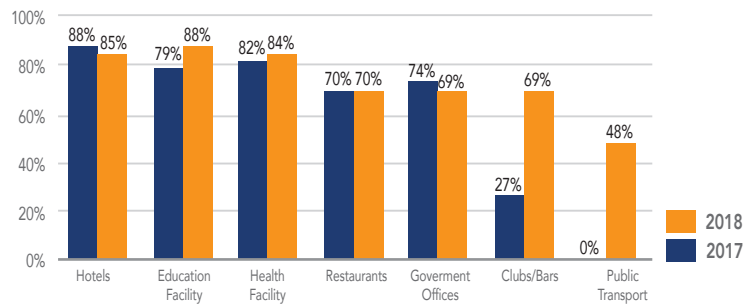

CAT alliance comprises of the following cities- Phnom Penh, Kampong Cham, Takmao, Siem Reap, Preah Sihanouk & Battambang

Cambodia smokefree cities and NCD Prevention Alliance (CAT)

Siem Reap

Improving Compliance of smokefree environments

Lessons learnt:

- Strong partnerships between national and subnational governments
- Building awareness and partnership with hotel and restaurants owners
- Regular monitoring
- Distribution of no smoking signage to all venues
- Training and orientation to enforcement agencies

Educating restaurant owners on smokefree laws

Timor-Leste

Ermera

Moving towards a Tobacco Free City

Municipal government bans smoking in all public places and work places including;

- Education facility
- Health facility
- Hotels and restaurants
- Government offices
- Public transport

Municipal government fosters partnership with youth leaders, community based organizations, students, teachers, international partners and media to promote tobacco control and prevention of NCDs.

President of Ermera Mr. Jose Martinho dos Santos presenting a plan of action.

Average: 92.5% pictorial health warning, the world largest

The President of Ermera Municipality took a lead role in supporting Ministry of Health Timor-Leste in adoption and implementation of the world largest pictorial health warning on tobacco packs in 2018.

Leading by example:
Kuala Lumpur City Hall
quit smoking workshop.

AP-CAT commits to...

Tobacco Control Best Buys

1. Create a smokefree city

Develop and implement a 100% smokefree policy in all public places and work places – **Cleaning air and preventing exposure to secondhand smoke**

2. Ban tobacco advertising, promotion and sponsorship

Develop and implement a regulation that bans tobacco advertising, promotion and sponsorship completely - **Preventing children and youth from picking up smoking**

3. Increase size of Pictorial Health Warning (PHW)

Work with Ministry of Health to enhance policy communication increasing the size of PHW on tobacco packs and establish a provision of PHW on alcohol products – Preventing people from consuming harmful products and building public awareness

4. Raise Taxes

Build policy advocacy to raise taxes and prices on tobacco, alcohol and other harmful products – Saving lives and saving money

5. Stopping Tobacco Organizations and Products

– Safe guarding people's health from tobacco industry

6. Establish NCD prevention program

Enlcorporate NCD prevention program into primary health care services and integrate tobacco control into the national agenda – Reducing NCD related deaths and diseases

7. **Create tobacco free generation (TFG):** Initiate the birth year based tobacco free generation, tobacco prevention programm – An endgame for tobacco

8. Establish country level alliances

Build subnational partnerships at the national level – Expanding AP-CAT

9. Monitor and evaluate

Monitor progress, so that interventions are implemented and progress can be measured – Do what we commit

Singapore

SENIOR MINISTER OF STATE FOR HEALTH,
MR CHEE HONG TAT, AT THE ASIA PACIFIC
CITIES ALLIANCE FOR TOBACCO CONTROL
MEETING, TUESDAY, 5 SEPTEMBER 2017

“Tobacco control requires effective partnerships and the participation of all stakeholders. I am glad to see many officials and healthcare experts come together to share experiences on this important topic. Singapore looks forward to learn from all of you and to better understand best practices in your countries and cities for reducing smoking prevalence. Together, we can improve the health of our people by working together and taking a united stand on tobacco control.”

AP-CAT
Asia Pacific Cities Alliance for
Tobacco Control and NCDs Prevention
Together - we bring health solutions

The Union and AP-CAT congratulate the government of Singapore for its tobacco control leadership in the region.

Recent advances in tobacco control

2017

- **Tobacco Point-of-Sale (POS) Display Ban:**
Singapore bans displays of tobacco products at POS, effective 1 August, 2017.
- **Increasing the minimum sale age for tobacco products:**
Singapore will raise the legal age for smoking from 18 now to 19 on Jan 1, 2019. It will be further raised every January until 2021, when people have to be 21 years old to light up.
 - *Because many smokers take up the habit before the age of 21 – and because the tobacco industry aggressively targets young adults – increasing the minimum sale age for tobacco products will complement proven strategies for reducing tobacco use.*

Ban display of tobacco products - A tobacco product cabinet at a FairPrice supermarket.

ABOUT THE UNION

THE FIRST GLOBAL HEALTH ORGANISATION

The Union is a global scientific organisation with the mission to improve health among people living in poverty. We do that by conducting scientific research, working with governments and other agencies to translate research into better health for people around the world, and delivering projects directly in the field. The Union is made up of a global membership body of people who help to advance our mission, and a scientific institute that implements public health projects within countries. For close to 100 years, we have been leaders in the fight against some of the world's biggest killers including tuberculosis, lung disease and tobacco use.

KNOW

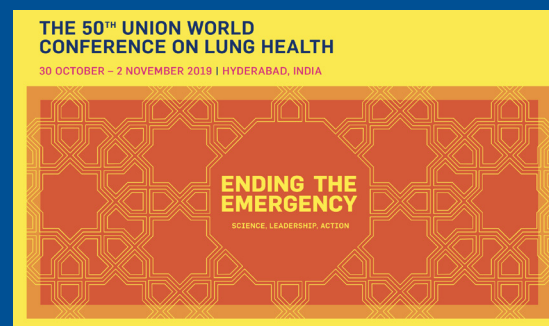

We conduct research to provide evidence for public health policy and practice

SHARE

We disseminate scientific knowledge to strengthen public health programmes.

ACT

We deliver services and conduct advocacy to safeguard people's health.

Acknowledgements

AP-CAT is thankful for the support from the Ministries of Health of the participating countries. We highly appreciate the support of Bloomberg Philanthropies and The Union.

We would also like to extend our gratitude for the support of the civil societies and NGOs that are passionate in their cause to protect people from the harms of tobacco and the prevention of non-communicable diseases.
